挂壁智能全身镜营销创意简报

一 项目名称：无界居家运动，包容每一种生活

Project Title: Unbounded Home Workouts: Every Story Is Embraced

二 营销目标：依托全渠道整合营销方案，提升壁挂智能健身镜的产品曝光，触达产后宝妈、时间紧张的打工人、中年群体、预算有限的运动爱好者、存在运动顾虑或基础疾病人群等多元用户群体，打破场地、时间与经济门槛的限制。**其中业务目标为**通过线上、线下全渠道联动，扩大产品认知度，挖掘高意向潜在客户，拉动产品预售转化；提升用户居家运动使用频次，让健身自然融入日常生活。**品牌心智目标为**搭建温暖包容的居家健身社群，传递人文关怀；引导大众将目光从对外的外在评价转向内在身心关照，鼓励用户悦纳自我、克服身材焦虑，重视自身健康，实现循序渐进的自我重塑，推动大众健康认知升级，落地品牌包容、重视身心健康的核心价值观。

Objective: Based on an omni-channel integrated marketing plan, we aim to boost the exposure of the wall-mounted smart fitness mirror and reach diverse user groups including postpartum mothers, time-strapped office workers, middle-aged audiences, budget-conscious fitness enthusiasts, and people with exercise concerns or underlying health conditions, breaking down barriers of venue, time and

cost.**The business objectives are** to expand product awareness, identify high-intent potential customers and drive pre-sale conversions through the coordination of online and offline omni-channels; raise the frequency of users' home workouts so that fitness can naturally integrate into daily life.**The brand mental objectives are** to build a warm and inclusive home fitness community and deliver humanistic care, guide the public to shift their focus from external evaluation to inner physical and mental well-being, encourage users to embrace themselves, overcome body image anxiety, value their physical health, achieve gradual self-transformation, advance public health awareness, and fulfil the brand's core values of inclusiveness and physical and mental wellness.

三 受众目标：目标受众年龄集中在 25–55 岁，是一群拥有自我成长与健康养护诉求，但被时间、预算、场地、心理压力或身体状况等现实条件制约，难以稳定参与线下健身房训练的多元人群。

1.产后宝妈（20–40 岁）

（1）生活方式：日常居家承担育儿工作，大部分时间需要陪伴、照料孩子，难以抽出连续完整的时段外出健身；部分家庭预算有限，无法长期负担健身房会员、私教等高额线下康复课程。她们

存在产后身体修复的刚性需求，同时具备一定购买力，愿意为安全专业的居家康复方案付费。

（2）健身习惯与兴趣：偏好低强度、温和、安全的康复类训练，适合碎片化抽空练习，不需要一次性长时间运动。

（3）核心诉求与价值观：希望获得居家可执行的专业康复指导，在带娃间隙完成体态与身体机能的恢复，重塑身心，找回更好的自己。认同家庭共同健康的文化，不追求快速减脂内卷，接纳循序渐进的身体变化。

（4）线上数字行为：喜爱浏览真实普通人的产后康复居家训练故事，愿意跟着线上专业课程练习，排斥过度滤镜、高强度身材对比类营销内容。

2.上班族（25–45 岁）

（1）生活方式：工作日通勤+工作消耗大量精力，前往健身房需要额外付出通勤时间，很难长期坚持固定时段线下锻炼。他们有维持体能、守护自身健康的刚需，同时具备一定购买力，愿意购买便捷居家健身产品节约时间成本。

（2）健身习惯与兴趣：偏好灵活、低门槛的居家训练，能够在下班回家后随时开启，就算中断、暂停，放弃成本也很低；希望训练内容可以根据每日身体疲惫程度自由调整。

（3）核心诉求与价值观：希望获取标准化、专业的居家健身指导，维护体能与长期身体健康；认同健康属于全家的事，愿意和伴侣一起运动，为孩子树立运动榜样。

（4）线上数字行为：习惯在社交平台、短视频平台寻找轻量化居家健身方案，偏好真实、不制造身材焦虑的内容。

3.家庭亲子单元（父母+孩子共同参与，儿童 3–15 岁）

（1）生活方式：一家人长期居家共处，希望把运动融入家庭日常，打造全家一起参与的家庭文化。他们有构建家庭健康生活方式的刚需，同时具备一定购买力，愿意投资可全家共享的家庭健康设备。

（2）健身习惯与兴趣：健身镜支持全家共用，父母可以带领孩子开展趣味轻运动，不再是成人单独健身，运动变成亲子陪伴的方式。

（3）核心诉求与价值观：不止成人收获专业训练指导，亲子共同运动可以塑造孩子的运动习惯，在家庭中传递健康生活理念，营造包容、无评判的家庭运动氛围。

（4）线上数字行为：喜欢观看家庭亲子运动的生活化短视频，寻找适合全家一起练习的趣味课程。

4.普通健身爱好者（25–45 岁）

（1）生活方式：向往专业健身指导，但受场地、预算限制，难以持续去线下健身房。他们有长期持续健身训练的刚需，同时具备一定购买力，愿意为随时随地获取专业课程的居家健身设备投入。

（2）健身习惯与兴趣：希望拥有丰富多元的课程库，自由挑选适配自身状态的训练内容，自主安排训练节奏。

（3）核心诉求与价值观：追求身心的正向改变，拒绝身材内卷与外在容貌评判，重视内在身心状态的提升，接纳自我，循序渐进完成自我重塑。

（4）线上数字行为：活跃于各大社交平台，关注普通人真实健身故事，偏爱低压力、灵活的居家健身内容，反感高强度、制造身材焦虑的广告。

5.中老年家庭成员（46–60 岁，祖辈）

（1）生活方式：大多居家生活，外出去健身房不便，关节体能不适合高强度健身房训练，重视慢病预防、日常身体养护。他们存在居家康养、慢病预防的刚需，同时具备一定购买力，愿意选购低强度、安全的居家养护健身工具。

（2）健身习惯与兴趣：偏爱舒缓、保护关节的居家康养训练，动作简单安全，可随时暂停休息。

（3）核心诉求与价值观：希望获得适合中老年群体的专业居家康养指导，维持身体活动能力；愿意加入全家运动，融入家庭健康氛围，认同健康是全家人共同的追求，拒绝“老年就不需要运动”的刻板观念。

（4）线上数字行为：会通过短视频学习简单居家拉伸、康养动作，偏好实拍、慢节奏、讲解细致的教学内容，排斥高难度高强度健身内容。

6.身体或心理有顾虑的群体（18–55 岁）

（1）生活方式：部分人群外在体态、身体基础条件较差，内心

存在自卑心理，没有勇气走进健身房；还有部分人群存在慢性基础疾病、运动损伤等情况，线下健身房环境嘈杂、缺少针对性保护，不适合前往。他们有安全私密开展运动康复训练的刚需，同时具备一定购买力，愿意为无压力、适配自身身体条件的居家健身方案买单。

（2）健身习惯与兴趣：偏爱私密、无旁人注视的居家训练环境，可随时停下休息，课程可根据自身身体限制做调整，规避不适动作。

（3）核心诉求与价值观：希望在家获得适配自身状况的专业运动指导，不用承受外界目光带来的心理压力；健身的核心是慢慢克服心理障碍、改善身体状态，而不是追求完美身材。重视运动的安全感与私密性，在无压力的环境中一点点突破自我。

（4）线上数字行为：搜索低压力、包容性强的居家康复与适应性训练内容，偏爱普通人真实的身体改善故事，回避健身房高强度竞技类健身内容。

7.中年压力群体（40–55 岁）

（1）生活方式：步入中年后，逐渐意识到身体的重要性，感受到上有老下有小的家庭责任，需要持续维护自身健康；日常工作与家庭双重压力繁重，很难抽出整块时间前往线下健身房。他们存在守护自身健康、保障家庭责任的刚需，同时具备一定购买力，愿意选择便捷高效的居家健身方案。

（2）健身习惯与兴趣：偏好省时高效的居家训练，课程时间

灵活可控，能够利用碎片化间隙开展运动，不用额外花费通勤往返健身房的时间。

（3）核心诉求和价值观：希望获得专业、温和的居家运动指导，把健康管理融入繁忙的中年生活；明白健康是支撑家庭责任的基础，不追求高强度速成训练，重视长期可持续的身体养护。

（4）线上数字行为：偏好查找省时、低负担的中年健康养护内容，关注真实的中年人体质改善案例，排斥消耗精力的高强度健身挑战类内容。

群体整体总结：所有受众群体之间不存在冲突，共享同一种健康文化观念：健康不是孤立的个人任务，而是可以融入家庭生活；健身目标是关照身心，而非迎合外界对身材的评判。全部人群都希望获得触手可及的专业指导，不受健身房场地、高昂费用、固定时间或是他人目光的约束，向往包容、无身材焦虑的运动社群。

Target Audience: The target audience is primarily aged 25–55. They pursue self-growth and wellness maintenance, yet are constrained by practical barriers including time, budget, venue, psychological stress or physical conditions, making stable participation in in-person gym training difficult.

1.Postpartum Mothers (20–40 years old)

(1) Lifestyle: They care for children at home most of the time and struggle to carve out continuous, unbroken blocks of

time to work out outside the home. Some households face budget constraints and cannot sustain high-cost in-person rehabilitation programs such as gym memberships or private coaching. They have rigid needs for postpartum physical recovery, possess moderate purchasing power, and are willing to pay for safe, professional home-based rehabilitation solutions.

(2) Fitness Habits & Interests: They prefer low-intensity, gentle, safe rehabilitative training suitable for fragmented spare time, without requiring lengthy single exercise sessions.

(3)Core Needs & Values: They seek actionable professional rehabilitation guidance for home practice, allowing them to restore posture and physical function amid childcare responsibilities, rebuild their mental and physical well-being, and reconnect with an improved version of themselves. They embrace a culture of shared family health, reject rapid weight-loss pressure and body-image competition, and accept gradual physical transformation.

(4) Digital Behaviors Online: They enjoy reading authentic personal stories of postpartum home rehabilitation, follow professional online courses, and reject heavily filtered

marketing content that emphasizes intense physical comparison.

2.Working Professionals (25–45 years old)

(1) Lifestyle: Commuting and work consume substantial energy on workdays; travelling to gyms adds extra commute time, making consistent fixed-slot in-person exercise hard to maintain. They have essential needs to preserve physical fitness and protect long-term health, with moderate purchasing power, and are ready to invest in convenient home fitness products to save time.

(2) Fitness Habits & Interests: They favour flexible, low-barrier home workouts that can start immediately after returning home. Workouts may be paused or interrupted with low abandonment cost; they want training content adjustable according to daily fatigue levels.

(3) Core Needs & Values: They look for standardised, professional home fitness guidance to sustain physical capacity and long-term wellness. They view health as a family priority and are willing to exercise alongside partners to set positive movement examples for children.

(4) Digital Behaviors Online: They routinely search for lightweight home fitness routines on social and short-video platforms, and favour authentic content that does not trigger body-image anxiety.

3.Family Parent-Child Units (Parents + children participating together; children aged 3–15)

(1) Lifestyle: Family members spend extended time together at home and hope to integrate exercise into daily household routines to build a shared family culture of wellness. They have a fundamental need to establish a healthy family lifestyle, with moderate purchasing power, and are willing to invest in home fitness equipment usable by the whole family.

(2) Fitness Habits & Interests: Fitness mirrors support shared use across the whole family. Parents can lead children through light, fun movement, transforming individual adult workouts into opportunities for parent-child bonding.

(3) Core Needs & Values: Beyond professional training guidance for adults, joint parent-child exercise helps cultivate children’s lifelong movement habits, spread wellness concepts

within the household, and foster an inclusive, non-judgmental atmosphere for family workouts.

(4) Digital Behaviors Online: They enjoy lifestyle short videos of family fitness and seek fun courses suitable for collective family practice.

4.Casual Fitness Enthusiasts (25–45 years old)

(1) Lifestyle: They aspire to professional fitness instruction but face venue and budget barriers that prevent consistent gym attendance. They have ongoing fitness training needs, moderate purchasing power, and are willing to invest in home fitness devices granting on-demand access to extensive professional courses.

(2) Fitness Habits & Interests: They want a diverse course library to freely select training matching their physical state and self-manage workout pace.

(3) Core Needs & Values: They pursue holistic positive physical and mental change, reject body-image competition and external appearance judgement, prioritise inner wellbeing, practise self-acceptance, and achieve self-reinvention step by step.

(4) Digital Behaviors Online: They are active on major social platforms, follow genuine fitness journeys from ordinary people, favour low-pressure, flexible home fitness content, and resist high-intensity advertisements that create body anxiety.

5.Senior Family Members (46–60 years old, grandparents)

(1) Lifestyle: Most live at home and find gym visits inconvenient. Their joint and physical capacity is unsuitable for high-intensity gym workouts; they prioritise chronic disease prevention and daily body maintenance. They have core needs for home wellness and chronic illness prevention, moderate purchasing power, and are willing to purchase low-intensity, safe home wellness fitness tools.

(2) Fitness Habits & Interests: They prefer gentle, joint-friendly home wellness training with simple, safe movements that can be paused for rest anytime.

(3) Core Needs & Values: They seek professional home wellness guidance tailored for older adults to preserve mobility. They are open to joining family exercise activities and participating in the shared household wellness culture. They

uphold the belief that health is a shared family pursuit and reject stereotypes that older adults no longer need to move their bodies.

(4) Digital Behaviors Online: They learn simple home stretching and wellness exercises via short videos, prefer real-shot, slow-paced tutorials with detailed explanations, and avoid high-difficulty, high-intensity fitness content.

6.Groups with Physical or Psychological Concerns (18–55 years old)

(1) Lifestyle: Some individuals suffer from low self-esteem due to body shape or poor baseline physical condition and lack confidence to enter public gyms. Others live with chronic conditions or sports injuries; noisy gym environments lack tailored protection and are unsuitable for them. They have essential needs for safe, private movement and rehabilitation training at home, moderate purchasing power, and are ready to pay for low-pressure home fitness programmes adapted to their physical limitations.

(2) Fitness Habits & Interests: They prefer private home training settings free from onlookers, where they may

pause to rest at any time. Courses can be adjusted to avoid movements that trigger discomfort, matching individual physical constraints.

(3) Core Needs & Values: They hope to access personalised professional movement guidance at home without the psychological pressure brought by external stares. For them, fitness is a gradual process to overcome mental barriers and improve physical state rather than chasing a perfect physique. They value safety and privacy in movement, making small breakthroughs in a low-pressure environment.

(4) Digital Behaviors Online: They search for inclusive, low-pressure home rehabilitation and adaptive training content, resonate with authentic stories of physical improvement from ordinary people, and avoid competitive high-intensity gym fitness content.

7.Middle-Aged Stressed Groups (40–55 years old)

(1) Lifestyle: Approaching middle age, they grow more aware of physical health and bear heavy family responsibilities caring for both elders and children. They need sustained health maintenance yet face heavy work and family pressure, leaving

little uninterrupted time to visit gyms. They have essential needs to safeguard their health to fulfil family duties, moderate purchasing power, and tend to choose convenient, efficient home fitness solutions.

(2) Fitness Habits & Interests: They favour time-efficient home workouts with flexible course duration, allowing exercise in fragmented gaps without spending extra time travelling to and from gyms.

(3) Core Needs & Values: They seek professional, gentle home movement guidance to integrate health management into busy middle-aged life. They recognise health as the foundation to sustain family responsibilities, avoid high-intensity crash training, and prioritise long-term, sustainable physical maintenance.

(4) Digital Behaviors Online: They look for low-burden, time-saving wellness content for middle-aged adults, follow authentic case studies of physical improvement among middle-aged people, and reject draining high-intensity fitness challenges.

Summary of all audience groups: There is no conflict among these audience segments. They share a unified wellness philosophy: health is not an isolated personal task but something integrated into family life. Fitness aims to nurture body and mind instead of meeting external standards for body appearance. All groups want accessible professional guidance, free from gym venue limits, high costs, fixed schedules or the gaze of others. They long for an inclusive fitness community free of body-image anxiety.

四 核心信息

1.本产品要传达的核心理念与价值

本产品传递的核心理念：只要你拥有改变现状的想法，任何人都拥有重塑自我的机会，不必自卑，无需身材焦虑，学会悦纳自己。

居家健身镜提供私密无打扰的运动环境，不用承受健身房里他人的目光，消除社恐、体态自卑带来的心理门槛。使用者完全可以跟随自己的节奏训练，依照自身身体条件调整运动方案。无论什么年龄、何种需求，或是存在基础疾病、运动障碍，在这里人人平等，都能安全地实现自我提升。帮助使用者把注意力从外界的评价，回归到自身身体感受上。

引导用户认知身体健康的价值：关注身体、主动改善自身状态，是重视自我、善待自己、悦纳自我的一种方式。产品适配全家不同成员，支持一家人共同参与运动，把健康变成家庭共同的生活习惯。

整体氛围倡导积极包容的运动文化，课程兼顾专业科学性，同时融入趣味、轻松的创意元素，让运动不再枯燥，激发持续运动的动力。运动不是为了追求完美身材，而是一场接纳自我、循序渐进的长期身心养护。

2.受众为何会关心

用户之所以关注这款智能居家健身镜，**首先**是长期综合成本低于线下健身房，无需持续支付高额健身年卡。居家场景大幅降低运动门槛，使用频次更高，便捷高效，不受场馆营业时间、通勤距离限制，能够随时随地开启训练。课程内容丰富多元，可按需挑选训练主题，支持个性化定制训练方案，适配不同人群的身体状况与健身目标。**同时**居家环境自带隐私属性，不用承受公共健身房里他人的目光，缓解身材焦虑与社恐压力。

除此之外，产品背后包容的人文理念同样打动用户：它尊重每一个人的身体状态，不分年龄、体质与健康情况，帮助大家悦纳自我，克服自卑与身材焦虑；支持全家共同参与运动，适合长期坚持。这是一项长周期投入，带来的身心收益更加长远。内置专业教练指导，规避独自锻炼时动作不标准引发的运动损伤；**还可**

以记录训练与身体数据，直观看到自身的进步，获得正向激励。它允许大家按照自己的节奏循序渐进运动，引导用户把目光从外界评价转向自身感受，在运动中学会重视身体健康。健身不再是一项有压力的任务，而是一场属于自己、全家都能参与的身心养护，兼顾专业度与趣味性，让更多人愿意长期坚持运动。

Core Message

1.Core Philosophy and Values to Be Conveyed by the Product

The core philosophy delivered by this product: Anyone gets the chance to reinvent themselves as long as they wish to make a change. There is no need for inferiority or body anxiety; learn to accept yourself.The home fitness mirror creates a private, undisturbed workout space. Free from the gaze of others in gyms, users can overcome the psychological barriers caused by social anxiety or body-related self-consciousness. Users may train entirely at their own pace and adjust workout plans according to their physical conditions. Regardless of age, needs, underlying illnesses or movement limitations, everyone is equal here and can safely achieve self-improvement. It helps users shift their focus away from external judgment and back to their own bodily sensations.

Guide users to recognise the value of physical health: Paying attention to the body and actively improving one's condition is a way to value, treat well and accept oneself. The product adapts to different family members and supports joint family workouts, turning health into a shared daily habit for the whole household.

The overall tone advocates a positive and inclusive fitness culture. Courses maintain professional scientific rigor while incorporating fun and lighthearted creative elements to make exercise less tedious and motivate consistent training. Exercise is not about pursuing a perfect physique; it is a long-term physical and mental wellness journey of self-acceptance and gradual progress.

2.Why the Audience Cares

The primary reason users are drawn to this smart home fitness mirror is its lower long-term overall cost compared with brick-and-mortar gyms, with no recurring expensive annual gym membership fees. The home setting greatly lowers barriers to exercise, enables more frequent use, and delivers convenience and efficiency. Training can start anytime, free from venue opening hours and commute distances. It offers a

rich and diverse library of courses, allowing users to select training themes as needed and customise personalised workout plans tailored to the physical conditions and fitness goals of different groups. **Meanwhile,** the home environment provides inherent privacy, freeing users from the stares found in public gyms and easing body anxiety and social anxiety.

Beyond that, the inclusive humanistic philosophy behind the product also resonates with users. It respects every individual's physical condition regardless of age, fitness level or health status, helping people embrace themselves and overcome inferiority and body anxiety. It supports joint family workouts and is suitable for long-term adherence. As a long-cycle investment, it yields more lasting physical and mental benefits. Built-in professional coach guidance helps avoid sports injuries caused by improper movements when exercising alone. **It also** records training and physical data, enabling users to visually track their progress and receive positive reinforcement. It allows people to progress at their own pace, guiding users to shift attention from external evaluation to internal bodily sensations and learn to value physical health through exercise. Fitness is no longer a stressful chore, but a personal wellness journey available to

the whole family. Balancing professionalism and fun, it motivates more people to stick with exercise over the long run.

五 渠道与平台

本次营销将采用线上内容种草+电商转化、线下场景体验、跨界合作+私域长期运营的全渠道整合营销，精准触达七大目标客群，传递品牌包容、悦纳自我的人文内核，不只推销硬件产品，更传递出不分年龄、体质，人人都可以循序渐进运动”的价值主张。

1. Instagram：发布家庭运动场景实拍图、用户真实故事图文、轻量化运动短片。

理由：擅长居家美学内容传播，适合传递无身材焦虑、接纳自我的品牌理念，触达注重生活品质的家庭用户。

2. YouTube：产出长视频内容，包含用户深度故事访谈、教练科普、完整课程试看、产品功能讲解。

理由：长视频能够深度传递人文价值，详细讲解产品如何适配不同年龄、不同身体状况的使用者，建立专业信任感。

3. 抖音/视频号短视频+直播：短视频输出轻量化故事向内容，展示全家一起运动、慢病康复训练、社恐人群居家安心锻炼的真实场景；直播间开放产品演示、课程试看，可预约上门体验。兼顾专业教练科普+趣味课程片段，弱化内卷式健身，强调跟随自身节奏运动。视频号重点触达中年群体、中老年用户。

理由：短视频传播速度快，覆盖宝妈、中年压力群体，直播直观展示居家隐私训练优势。

4. 小红书：主打家庭生活、产后修复、中年健康、体态焦虑、居家运动内容。大量素人 KOC 真实分享居家训练故事，重点传递隐私运动、悦纳自我、克服身材自卑的人文内容；搭配家居场景实拍，面向宝妈、中年家庭主力人群种草。

理由：平台用户习惯参考真实用户体验，非常适合种草，传递拒绝身材焦虑的理念。

5. 垂直健身平台（Keep 等）：联合上线温和、低强度的专属课程，发起“接纳自我，循序渐进”主题运动挑战赛，触达普通健身爱好者，传递不焦虑的运动理念。

理由：触达已经有健身意愿的人群，打破传统健身内卷。

6. 母婴、家庭健康、中年养生社群：入驻宝妈群、中年家庭交流群、慢病康复交流社群，输出健康科普内容，不硬广推销，以内容建立信任，触达产后宝妈、中年压力群体、有基础疾病的用户。

理由：在用户聚集的圈层做软性科普，减少营销抵触感。

7. 电商转化渠道（天猫、京东品牌旗舰店，品牌官方小程序独立商城）：详情页突出长期综合成本低于健身房、随时随地训练、课程丰富个性化、居家隐私保护，同时展示品牌人文价值；支持分期购买，降低大额硬件的购买门槛，承接种草后意向用户。理由：作为流量收口，承接种草后的意向客户，完成购买转化。

8. 电子邮件营销：面向潜在客户、体验预约用户、老客户分层发送邮件。

理由：适合深度传递产品长期健康价值，推送用户故事、专属活动，维护长期客户关系，匹配项目长周期健康收益的定位。

9. 线下体验渠道

- 高端家居卖场、智能家居展厅设置体验点位，放在家庭场景里，让用户直观感受居家使用氛围，适合全家用户体验。

- 跨界合作点位：月子中心、康复中心、社区健康服务中心、企业员工健康空间。触达产后修复人群、慢病/运动损伤人群、职场中年上班族，传递安全、温和的康复运动价值。

- 城市小型体验展厅：预约到店体验，现场演示不同人群的专属课程，感受私密训练环境。

理由：健身镜属于高价硬件，线下体验可以打消用户顾虑，直观感受产品。

10. 跨界品牌合作：与母婴品牌、健康体检机构、康复理疗机构、家装全屋定制品牌、企业员工福利项目合作。面向家庭用户、中年上有老下有小的群体，传递家庭健康管理理念；共同输出“悦纳自我、重视身体健康”的内容，把产品包装成家庭长期健康投资。

理由：借助合作方的流量和信任，触达目标人群，强化品牌人文调性。

11. 私域社群运营：成交用户导入品牌私域社群，按人群分层运

营：宝妈社群、中年健康社群、亲子家庭社群、康复运动社群。社群不只是卖货，持续输出温和运动知识、用户真实改变故事，鼓励用户分享自己的训练变化，打造包容无评判的社群氛围；鼓励全家一起参与运动，沉淀 UGC 真实故事，老用户推荐新用户，形成口碑裂变。

理由：长期陪伴用户，匹配产品长期、长远的身心收益属性。

12. 搜索引擎渠道（知乎、百度）：产出科普文章，回答用户关心的问题：居家健身和健身房对比、体态焦虑如何缓解、中年人如何安全运动、居家康复训练方案。用户主动搜索健身解决方案时，传递产品优势与品牌人文理念，捕获高意向客户。

理由：抓取主动搜索的高意向用户，理性对比产品优势。

整体逻辑：所有渠道不只是推销产品功能，同步传递品牌人文理念，让受众理解健身镜不只是运动硬件，更是帮助大家悦纳自我、克服焦虑、全家长期养护身心健康的工具。

Channels & Platforms

This marketing campaign adopts an omni-channel integrated marketing strategy combining online content cultivation + e-commerce conversion, offline scenario experience, cross-border cooperation and private domain long-term operation. It accurately reaches the seven core target groups and conveys the brand’s humanistic core of inclusiveness and

self-acceptance. Rather than merely selling hardware products, it delivers the value proposition that “everyone can exercise progressively regardless of age or physical condition”.

1. Instagram: Release real-scene photos of family workouts, graphic content of authentic user stories, and lightweight exercise clips.

Rationale: The platform excels in disseminating home lifestyle aesthetics, which is ideal for conveying the brand philosophy of body positivity and self-acceptance, and reaching quality-oriented family users.

2. YouTube: Produce long-form videos including in-depth user story interviews, coach-led science popularization, full course previews, and product function tutorials.

Rationale: Long videos enable in-depth delivery of humanistic values, elaborating on how the product adapts to users of different ages and physical conditions, so as to build professional credibility.

3. Douyin / WeChat Channels (Short Videos + Live Streaming): Short videos deliver story-based lightweight content, presenting real scenarios including family group workouts, chronic disease rehabilitation training, and stress-free home exercise for socially anxious groups. Live

streams feature product demonstrations, course previews and on-site experience reservations. The content integrates professional coach popular science and interesting course clips, downplaying competitive fitness involution and emphasizing exercising at one's own pace. WeChat Channels focuses on reaching middle-aged and senior users.

Rationale: Short videos spread rapidly and efficiently cover postpartum mothers and stressed middle-aged groups, while live streams intuitively highlight the privacy and convenience of home workouts.

4. Xiaohongshu: Focus on content covering family lifestyle, postpartum recovery, middle-aged health management, body posture anxiety and home-based fitness. A large number of ordinary KOCs share authentic home workout experiences, focusing on delivering humanistic concepts of private exercise, self-acceptance and overcoming body inferiority, matched with real home scene shooting to cultivate user interest among postpartum mothers and middle-aged family backbone groups.

Rationale: Platform users rely heavily on real user experience, making it ideal for content marketing and promoting the brand's anti-body-anxiety philosophy.

5. Vertical Fitness Platforms (e.g. Keep): Launch exclusive gentle, low-intensity fitness courses in collaboration with platforms, and initiate the themed fitness challenge “Embrace Yourself, Progress Step by Step” to reach general fitness enthusiasts and spread a low-pressure fitness concept.

Rationale: Target users with existing fitness willingness and break the traditional involution of high-intensity fitness culture.

6. Maternal, Family Health & Middle-aged Wellness Communities: Settle in maternal groups, middle-aged family communication groups and chronic disease rehabilitation communities, output professional health popularization content instead of hard-selling advertisements, and build user trust through professional content to reach postpartum mothers, stressed middle-aged groups and users with underlying health conditions.

Rationale: Soft popular science in user-centric circles reduces marketing resistance and improves user acceptance.

7. E-commerce Conversion Channels (Tmall & JD Brand Flagship Stores, Official Brand Mini-program Mall): Product detail pages highlight core advantages including lower long-term comprehensive costs than gym memberships, anytime-anywhere workout access, diverse

personalized courses and home privacy protection, while displaying the brand's humanistic values. Installment payment options are provided to lower the threshold for high-value hardware purchases and convert intention users cultivated by content marketing.

Rationale: Serve as the final traffic closure to realize user acquisition and purchase conversion.

8. Email Marketing: Send hierarchical customized emails to potential customers, experience reservation users and existing loyal customers.

Rationale: Suitable for in-depth delivery of the product's long-term health value, pushing user stories and exclusive activities, maintaining long-term user relationships and matching the product's positioning of long-term physical and mental wellness benefits.

9. Offline Experience Channels

- Premium home furnishing malls and smart home exhibition halls: Set up experience booths embedded in real home scenarios, allowing users to intuitively perceive the home usage atmosphere and suitable for whole-family experience.

- Cross-industry experience sites: Maternity centers, rehabilitation centers, community health service centers and corporate employee health spaces. Target postpartum recovery groups, users with chronic diseases or sports injuries, and middle-aged workplace professionals to convey the value of safe and gentle rehabilitative exercise.

- Urban mini experience showrooms: Support appointment-based on-site experience, with on-site demonstrations of exclusive courses for different user groups and immersive experience of private workout environments.

Rationale: As a high-value hardware product, offline experience eliminates user concerns and enables intuitive product perception.

10. Cross-brand Cooperation: Collaborate with maternal and infant brands, physical examination institutions, rehabilitation physiotherapy institutions, whole-house decoration customization brands and corporate employee welfare programs. Target family users and middle-aged groups with family responsibilities, spread the concept of family health management, jointly launch content themed on “self-acceptance and physical health priority”, and position the product as a long-term family health investment.

Rationale: Leverage the traffic and user trust of cooperative partners to accurately reach target groups and strengthen the brand's humanistic tone.

11. Private Domain Community Operation: Guide purchased users into brand private domain communities and implement hierarchical operation including maternal community, middle-aged health community, parent-child family community and rehabilitation fitness community. The communities focus on long-term user retention rather than pure sales. Continuously output gentle exercise knowledge and authentic user transformation stories, encourage users to share personal workout progress, and build an inclusive, non-judgmental community atmosphere. Advocate whole-family joint exercise, precipitate authentic UGC stories, and realize word-of-mouth fission through user referrals.

Rationale: Provide long-term user companionship, matching the product's attribute of bringing long-term physical and mental wellness benefits.

12. Search Engine Channels (Zhihu, Baidu): Publish popular science articles to answer user-concerned questions, including comparisons between home fitness and gym workouts, solutions to body posture anxiety, safe exercise

methods for middle-aged people, and professional home rehabilitation training plans. Deliver product advantages and brand humanistic concepts when users actively search for fitness solutions, so as to capture high-intention customers.

Rationale: Accurately capture actively searching high-intention users and demonstrate product advantages through rational comparison.

Overall Logic: All channels focus on both product function promotion and brand humanistic value dissemination. The audience can fully understand that the smart fitness mirror is not merely a sports hardware device, but a practical tool to help users accept themselves, relieve anxiety, and achieve long-term physical and mental wellness for the whole family.

六 创意物料与所需创意资产

为匹配本次全渠道整合营销的传播节奏、品牌人文理念与多元受众需求，本次营销活动需要系统化、全覆盖的创意物料支撑。所有物料统一遵循「包容治愈、无身材焦虑、适配全年龄、专业且有趣」的内容基调，避开传统健身内卷、高强度对比、容貌评判式画面，重点传递悦纳自我、循序渐进、全家共健、隐私安心的核心价值，适配线上种草、短视频传播、直播转化、线下体验、私域运营、海外平台传播全场景。

1.视频类创意物料

（1）用户真实故事短片系列

分别拍摄产后修复人群、职场上班族、中年压力群体、亲子家庭、体态自卑人群、慢病康养人群的居家运动日常。记录普通人从零开始、缓慢改变、接纳自我的真实过程，突出居家隐私运动、无压力训练、跟随自身节奏成长的画面，用于抖音、视频号、小红书、YouTube 深度内容传播。

（2）趣味轻量化课程片段

截取轻松、低强度、适配全家的趣味运动课程，弱化竞技感，强化陪伴感与趣味性，适配短视频流量逻辑，解决传统健身内容枯燥、高强度、劝退普通人群的问题。

（3）专业教练科普短视频

产出安全运动知识、居家康复常识、中老年养护知识、体态改善干货内容，建立产品专业背书，同时传递科学、温和、不焦虑的运动理念。

（4）海外版英文叙事短片

制作适配 Instagram、YouTube 的英文场景短片，展示居家家庭健身氛围、产品功能优势、包容的品牌理念，适配全渠道海外传播需求。

（5）直播专属素材

包含产品功能演示片段、不同人群课程试看、用户蜕变访谈、直

播口播脚本、场景背景素材，支撑常态化直播带货与品牌种草。

2.图文海报类物料

（1）品牌价值治愈海报

主打「悦纳自我、拒绝身材焦虑、每个人都可以改变」人文主题海报，适合全平台日常种草。

（2）人群细分场景海报

针对宝妈、上班族、中年人、中老年、亲子家庭、康复人群分别制作专属场景海报，精准匹配不同受众痛点。

（3）产品优势卖点海报

清晰展示：性价比高于健身房、居家隐私、随时随地训练、个性化课程、全家共用、长期健康收益等核心优势。

（4）家庭运动氛围海报

主打全家运动、家庭健康生活理念，强化产品家庭属性与长周期价值。

3.电商与落地页物料

（1）品牌官方旗舰店详情页素材

全套图文内容，融合产品功能、全年龄适配性、隐私安全优势、人文品牌理念、真实用户案例，承接全渠道流量转化。

（2）活动落地页、预约体验页面素材

用于线上活动报名、线下体验预约、私域引流，统一品牌视觉风

格。

4.线下场景物料

（1）线下体验区展板、背景墙、产品介绍展板

适配方家居展厅、月子中心、康复机构、社区健康中心、企业健康空间等线下全渠道点位。

（2） 宣传手册、体验指南

内容侧重安全运动、适配人群、家庭运动价值、长期身心收益，风格温和治愈。

5.私域社群专属物料

（1） 每日运动科普图文、打卡模板

（2）用户蜕变故事合集、真实反馈素材

（3） 家庭亲子运动教程、中老年养护指南

用于分层社群日常运营，打造无评判、积极包容的社群，推动用户长期留存与口碑裂变。

6.文案类资产

(1)全平台种草文案、短视频脚本

（2）品牌人文价值宣传文案

（3）邮件营销分层文案（新客、潜客、老客）

（4）社群互动话术、活动文案、口碑裂变文案

7.整体物料统一调性要求

所有创意物料不制造身材焦虑、不对比身材、不鼓吹速成，**统一传递：**

人人平等、悦纳自我、循序渐进、隐私安全、全家参与、长期健康、自我重视的品牌核心，完美匹配本次全渠道营销的品牌心智目标与用户价值主张。

Creative Materials & Required Creative Assets

To match the communication rhythm of this omni-channel integrated marketing campaign, the brand’s humanistic philosophy and the demands of diverse audiences, systematic and fully covered creative materials are required for this marketing activity. All materials follow a unified tone: inclusive and healing, free of body anxiety, suitable for all ages, professional yet fun. We avoid visuals featuring traditional fitness competition culture, high-intensity physical comparison or appearance judgment. The focus is to convey core values of self-acceptance, gradual progress, family-wide fitness, privacy and peace of mind. The materials adapt to all scenarios including online content seeding, short-video distribution, live-stream conversion, offline experience, private domain

operation and overseas platform communication.

1. Video Creative Materials

(1) Series of short films featuring authentic user stories

Shoot daily home workout footage for postpartum recovery users, office workers, middle-aged groups under pressure, parent-child families, people with body-related self-consciousness, and groups receiving chronic disease wellness care. Document ordinary people’s authentic journeys of incremental transformation and self-acceptance starting from scratch. Highlight visuals of private home workouts, low-pressure training and growing at one’s own pace, for in-depth content distribution on Douyin, WeChat Channels, Xiaohongshu and YouTube.

(2) Lightweight fun course clips

Extract relaxed, low-intensity fun workout courses suitable for the whole family. Reduce competitive vibes and strengthen companionship and enjoyment. Align with short-video traffic logic to resolve pain points of traditional fitness content: dullness, high intensity and discouragement for general audiences.

(3) Short educational videos by professional coaches

Produce knowledge about safe exercise, home rehabilitation basics, elderly wellness and posture improvement takeaways. Build professional credibility for the product while communicating a scientific, gentle and low-pressure fitness philosophy.

(4) Narrative short films in English for overseas markets

Produce English scene-based short films tailored for Instagram and YouTube, showcasing the atmosphere of home family fitness, product functional advantages and inclusive brand philosophy to meet the needs of omni-channel overseas communication.

(5) Exclusive live-stream assets

Including product function demo clips, course previews for different user groups, interviews on user transformation, live-stream scripts and scene background materials to support regular live-stream sales and brand content seeding.

2. Graphic & Poster Materials

(1) Healing brand value posters

Humanistic themed posters centered on “Self-acceptance, reject body anxiety, everyone can transform”, suitable for routine content seeding across all platforms.

(2) Scenario-based posters segmented by audience

Produce dedicated scenario posters for mothers, office workers, middle-aged adults, seniors, parent-child families and rehabilitation users to precisely address pain points of different audiences.

(3) Posters highlighting product selling points

Clearly showcase core advantages: better cost-performance than gym memberships, home privacy, anytime-anywhere training, personalised courses, multi-user access for the whole family, and long-term wellness benefits.

(4) Posters featuring family workout atmosphere

Focus on family exercise and the philosophy of healthy family lifestyles, reinforcing the product's family orientation and long-cycle value.

3. E-commerce & Landing Page Materials

(1) Asset package for brand flagship store product pages

A full set of graphic and text content integrating product functions, cross-age adaptability, privacy and safety advantages, humanistic brand philosophy and authentic user case studies to receive traffic conversion from all channels.

(2) Assets for campaign landing pages and experience

reservation pages

Used for online event registration, offline experience booking and private domain lead generation, maintaining unified brand visual identity.

4. Offline Scene Materials

(1) Display boards, backdrop walls and product introduction panels for offline experience zones

Deployed across all offline touchpoints including smart home showrooms, maternity centres, rehabilitation institutions, community health centres and corporate wellness spaces.

(2) Brochures and experience guides

Content focuses on safe exercise, applicable user groups, value of family workouts and long-term physical and mental benefits, with a gentle and healing visual style.

5. Exclusive Materials for Private Domain Communities

(1) Daily fitness knowledge graphics and check-in templates

(2) Collections of user transformation stories and authentic testimonials

(3) Parent-child family workout tutorials and elderly wellness guides.Used for daily operation of segmented communities to build a non-judgmental, positive and inclusive community, driving long-term user retention and word-of-mouth growth.

6. Copywriting Assets

(1) Cross-platform seeding copy and short video scripts

(2) Brand copy communicating humanistic values

(3) Segmented email marketing copy (new prospects, potential customers, existing customers)

(4) Community interaction scripts, event copy and referral campaign copy

7. Unified Tone Requirements for All Materials

No creative material shall induce body anxiety, compare body shapes or advocate rapid results. **All materials consistently communicate the brand's core values:** equality for all, self-acceptance, gradual progress, privacy and safety, family participation, long-term health and self-care. This fully aligns with the brand mental target and user value proposition of this omni-channel marketing campaign.
